

# COMFORT Udder Care

## HEALTHY UDDERS FOR GOATS AND SHEEP!

- Less edema
- Less mastitis
- Less antibiotics
- Lower SCC
- Better milk letdown
- No withhold period

HEALTHY UDDERS MAKE MORE MILK!

### Udder Care Green Spray

- Treatment of the whole udder or per half.
- Treat a hard udder for 4 days, twice a day.
- Treat the complete udder twice a day for 4 days around birth lambs.
- Udder Care green has natural ingredients, but the natural dye gives a green marking of treated udders. This marking is visible until the next milking.
- Udder Care consists of essential oils and natural additives.

TIP

### WHEN TREATING LARGER NUMBERS

Udder Care is easy to apply with the robust Comfort Udder Sprayer. This 10 liter sprayer works on a rechargeable battery. With the special pre-assembled spray head, it is possible to quickly treat a half or full udder.
