

HOOFED

EVOLUTION UNDER FOOT

HOOF-BATH SOLUTION FOR LAMENESS IN DAIRY COWS.

- 🔥 Hoofed targets and kills the specific bacteria which lead to diseases that cause lameness.
- 🔥 Friendly and safe for the farmer, animal and biogas manure digester.
- 🔥 Free of antibiotics and heavy metals, making it ecologically sound and healthier for the animal.
- 🔥 Has low PH, which neutralizes the high PH of farm environment.
- 🔥 Less labour-intensive with lower frequency of use and no withdrawal needed.
- 🔥 Contains cleaning and high-foaming agents removing organic matter on the hoof.
- 🔥 Reduces the potential of hazardous waste in the slurry and In effluents.
- 🔥 Suitable for use in a wide range of footbaths, automatic footbaths and spray systems.

ACTIVE SUBSTANCE
Organic Acids
Polyamine

SPECIFICATIONS	
pH	Low pH
Versatility	Suitable for manual and automatic foot baths, mats and sprays
When to use	X2 per day for 2 days every 2 weeks
Concentration	Add 2% per foot bath
Strength	Excellent adhesion ability
Foaming	Advanced foaming system
Environmental Impact	Biodegradable ingredients free of heavy metals and antibiotics
Labour Requirements	Lower frequency of use than other treatment methods
Quantity	Available in 20, 60 and 200 liters
